

# MONTHLY MEANDERS

## BOARD BANTER

The Harmon Hundred is coming Sunday, September 9th and your support is needed.

Everyone in the club is familiar with the Harmon. Of all the things we do as a club this is our touchstone event. It is the event outsiders most associate with the club, and it is the principal way we support the good things we do – bicycle advocacy and club events. The Harmon brings in more revenue for the club in one year than two years of dues. A successful Harmon is the single most important thing we can accomplish each year to help our club thrive.

This will be our 43rd Harmon. Our first was back in 1970, which makes the Harmon the oldest invitational bike ride in the northern Chicagoland area. Road biking then was a different sport, without the mainstream appeal we currently enjoy. The original ride started at Wheeling High School, back when Wheeling was the last outpost before the cornfields of southern Lake County. The population of Lake County for that Harmon was 350,000 people, half of what it is today. Traffic was light and

the roads were ours. No one gave a second thought to riding three abreast down Route 83. Try that today!

The intervening years have brought many changes to our sport. Cycling has grown in popularity. Carbon frames have replaced steel. Helmets have become mandatory. And the Harmon, too, has changed. The start has migrated from Wheeling High School, on to the Wauconda Apple Orchard, and finally to its current home in Wilmot. We have hosted more than 20,000 riders who have covered over 1 million miles on every scenic road in the area.

One thing hasn't changed, and that's our commitment to providing the best experience for our riders. Since that first Harmon we've developed a reputation for great routes, great marking, great food, great support, and a friendly attitude. It is our challenge as Wheeling Wheelmen to carry this on in 2012.

This year's Harmon will be Sunday, September 9th. Like last year's, the ride will start from Wilmot High School and will provide options for 25, 50, 62, 75

and 100 miles. There will be two rest stops – Eagle Lake Park and Bassett Park. We've targeted our promotional efforts to bring in more than last year's 600+. Everything is coming together for a great event.

For all this to work we need 90 volunteers. By late July so far 65 have committed. For those of you who have already committed, thank you. For those of you who have not yet signed up please see the sign up sheets that will be at all the rides, or contact Todd Berlin at [todd.berlin@rrd.com](mailto:todd.berlin@rrd.com).

There are a lot of ingredients in a successful Harmon. Some we can't control: the weather, or the competition. Some we can: give all of our riders the most outstanding service and experience. We do this by everyone participating any way you can, and delivering it all with a smile and friendly "thank you for coming".

Please help out and let's make this year's Harmon our best ever. Thank you for your support and see you on the road.

*Todd Berlin*

ALEXIAN BROTHERS  
TOUR OF ELK GROVE

Celebrating its 7th year, the Tour of Elk Grove will be held from Friday-Sunday, August 3-5

Over the weekend, the Tour of Elk Grove features more than 15 professional and amateur races for both men and women. Total prize money is expected to be nearly \$150,000. Of this amount, the total prize purse for the men's pro 3-stage race is expected to top \$100,000.

The weekend also includes a sports/food/merchant expo, community races, and community "block parties" with music, food and fireworks on Friday and Saturday nights.

For more information please visit [www.tourofelkgrove.com](http://www.tourofelkgrove.com)

### WHEELING WHEELMEN BOARD MEETING JULY 9, 2012

**Present:** Barb Barr, Joe Beemster, Todd Berlin, Pat Calabrese, Ella Shields, Johannes Smits, Dave Waycie

The meeting was called to order at 7:10 pm.

**Treasurer's report:** Income ahead of last year at this time. Due primarily to the high turnout for St. Patty's day ride.

**IRS Application:** The IRS has received our submittal for not for profit status but are behind in reviewing the numerous applications. Waiting for their determination

**Harmon:** Reviewed progress. Volunteer signup going well, but we still need volunteers for many tasks – primarily rest stops.

**Club Picnic:** Another successful picnic. 45 riders did the rides. A big thank you again to Al and Cindy Schneider.

**Constitution and Bylaws:** Several minor corrections have

been made over the past year. Ready for posting on Wheelmen Web Site

**Ride Cancellation Procedures:** The Yahoo group seems to be working well to handle cancellations and changes. We have had several positive comments about the weekly ride update emails.

**Newsletter Articles:** August – Todd Berlin

**Monday night ride:** will be discontinued on Monday August 6<sup>th</sup> due to lack of participation. Thanks to Virginia for heading this up the past two years.

**Next Board Meeting:** Monday, August 13, 7:00 pm. Barb Barr will host.

The meeting was adjourned at 8:10.

Dave Waycie  
Secretary

**WHAT NOT TO DO AT A STOP LIGHT**

We've all seen it. (And let's be honest, we've all done it!) Waiting at a stop light, the light turns green and the group takes off while we're left waiting, trying to get our food back in our pockets or our bottles back in the cages. This article is for new riders who may not have had that experience yet and for the more experienced among us that still occasionally forget. It's one part safety and one part practical advice. So without further ado, here is what **NOT** to do at a stop light:

- **Don't roll through a red light.** Not only is it illegal, but it's a great way to turn yourself into a hood ornament. If it's yellow, you should already be thinking RED.
- **Don't be anywhere to the left of the centerline of the road.** The only time you have any reason to cross the centerline is if you're in the middle of executing a left turn. (Or your legs are feeling great and you're passing cars in legal passing zones!)
- **Don't pass and stop in front of stopped cars.** It only puts you in the way when the light turns green. Keep your place in line and everything will flow smoothly.
- **Don't mass up to the line and unnecessarily spill into turn lanes.** Again, it just slows traffic that could otherwise keep moving.

- **Don't have your bike pointed any direction other than forward.**
- **Don't unclip from both pedals.** You'll want to be ready to move right away.
- **Don't start eating or drinking when the light is about to turn green.** If you do, you've now got one foot and one or both hands off the bike.
- **Don't start checking messages on your phone.** This is the same idea as not eating and drinking. Hopefully by now this one is self-explanatory!
- **Don't find yourself in too big a gear when the light turns green.** Think ahead and shift to a smaller gear that will be easier to pedal the first few strokes.
- **Don't spend a quarter-mile looking down trying to get your feet into your pedals.** Practice with your pedal system so that you can quickly and confidently engage your cleat and start moving. If all else fails, learn to just put a foot on the pedal and start pedaling, then work on seating the cleat once you're safely in the group.

Keeping these ideas in mind as you ride, especially with a group, will help to keep you flowing smoothly with traffic. More importantly, you can avoid the extended chase and sometimes long ride home when you're caught unawares and the group rides away before you get back on. Good riding! by [Jason Schisler](#) from vision quest newsletter

A big thanks to Al & Cindy Schneider for hosting another great picnic.

Approximately 50 people enjoyed terrific food, good friends, and great camaraderie.

A good time was had by all.

**Maps for WW Routes Available on MapMyRide.com**

Just a reminder, if you want to have access to maps for many of the Wheelmen routes we are using MapMyRide.com to create them. We are slowly building a library of maps that you can use if you "friend" our account. Just go to MapMyRide.com, create your own account for free, and request to "friend" Sheri Rosenbaum. Once I receive your request and accept it, you'll have access to our library. Simple and free. Remember, only active Wheeling Wheelmen members will have access to the maps

**BICYCLE QUOTE**

After your first day of cycling, one dream is inevitable. A memory of motion lingers in the muscles of your legs, and round and round they seem to go. You ride through Dreamland on wonderful dream bicycles that change and grow. ~H.G. Wells, *The Wheels of Chance*

## HYDRATION TIPS

- **Hydrate before, during, and after the ride** - force yourself to drink as thirst alone will not reflect complete rehydration, so learn to drink *before you are thirsty*. Using a CamelBak or similar device on long rides will eliminate worries about stopping and possibly losing your group. Watch the color of your urine, if you are doing a good job on replacement it should be colorless.
- **Don't skimp when using a sports drink** - don't assume that because they contain electrolytes and carbohydrates you don't need to drink as much. As the sweet taste often keeps you from drinking, dilute it or take an extra bottle of plain water to alternate.
- **Keeping liquids cool has been shown to increase intake on a ride** - either add ice the day of the ride or freeze half a water bottle of fluid the night before and top it off with water from the tap or extra sports drink just before the ride.
- **Weigh yourself before and after the ride** - most of your weight loss will be fluid (2 pounds equals 1 quart or "a pint's a pound"). A drop of a pound or two won't impair performance, but any more and you need to reassess your personal hydration program. A gain of more than 1 or 2 pounds suggests you are over compensating. This is an especially important strategy in hot weather where fluid losses can easily exceed several quarts an hour.
- **Wear the right clothing** - light colored to reflect heat and a loose weave jersey to help keep you cool and lessen sweat losses.
